

Instructions for Conference Participants on Using Zoom

Connecting to the conference

A single shared Zoom link (see the schedule) is used to participate in the conference. This link will be used for the opening and closing ceremonies, as well as for all parallel sessions.

After joining the conference, you will be placed in the *Main Room*.

Breakout rooms

Five separate rooms have been created for parallel sessions:

- Room A (*Algebra, Geometry and Topology*)
- Room B (*Differential Equations and Mathematical Physics*)
- Room C (*Probability and Statistics*)
- Room D (*Theory of Functions and Functional Analysis*)
- Room E (*Applied and Computational Mathematics*)

The name of your session room is indicated in the conference schedule.

How to join your breakout room

1. After joining the conference, find the *More* button on the Zoom control panel and click it.
2. In the menu that appears, select *Breakout Rooms*.
3. In the list of rooms, find your assigned session room (*Room A, Room B, Room C, Room D, or Room E*).
4. Click *Join* next to the appropriate room.
5. Confirm the transition to the room.

Returning to the Main Room

After the session ends, click *Leave Room* to return to the Main Room of the conference, or *Leave Meeting* to fully exit the meeting.

For speakers

Before your presentation, we recommend:

- Joining Zoom 10–15 minutes before the session starts;
- Checking your microphone and camera;
- Opening your presentation in advance;
- Using the *Share Screen* function during your talk to present materials.

If you experience difficulties

If you cannot find or join your assigned room, please remain in the Main Room and report the issue in the Zoom chat. Members of the organizing committee will assist you in joining the correct session.

We wish you a successful participation and a productive conference experience!
